OSU LINK TO NSA WILL BE DECIDED

CPYRGHT

Future affiliation between the Ohio State University Council of Graduate Students and National Student Association will be decided next Wednesday in the light of Central Intelligence Agency support of the NSA, President Ronald Harper said Thursday.

NSA officers in Washington, D.C., confirmed that the 1.3 million member student organization, affiliated on 300 campuses, had received CIA subsidies since 1952.

OSU UNDERGRADUATE students voted in November, 1963 by a margin of two to one to reject NSA membership, an action they had previously taken in 1962.

The council, which represents about 6000 graduate students, retained its NSA affiliation. Annual dues of $150 are paid through the group's annual university allocation of $2550, Harper said.

HARPER SAID that revaluation of the NSA link is on the graduate council executive committee's agenda and probably will come before the 80 delegates for action.
